B

DIARY NOTES

DD/S

24 November 1964

1. 25X1A9a called to say that he had been asked by 25X1A9a of BPAM for some written statements on the subject of indirect assessment and that he had prepared the information. He suggested and I agreed that he submit it through me. (I would like to see this paper before it goes forward, and I would also like to find out from John Clarke the reason for this request before we forward the written information.)

TSD also does a form of personality assessment of the candidate in the Budget hearings

25X1A9a

2. I talked to Dick Helms, 25X1A9a and 25X1A9a about plans for receiving the three Agency people who have been liberated from 25X1A6a Glenn promised to get in touch with me to talk about the problem further as soon as he has had a chance to talk with 25X1A6a

25X1A6a

25X1A6a

By the close of business I still had not heard from him.

3. 25X1A9a was up to talk with me about a close support requirement for 25X1A6a which they have been asked to take on by NSA. He had a whole series of papers, all of which added up to the fact that they were going to ask DD/S to have the Office of Communications undertake this requirement and furnish the slots. I said that I could not furnish the slots and that, if I received his memorandum in its present form, I would merely forward it to Mr. Kirkpatrick saying that we would be happy to undertake the work if he would give us the slots. As an alternative I suggested that they address their memorandum to Kirk asking that the slots be given to the Office of Communications and I would be glad to concur in it. I also told Carlton that I hoped this incident would precipitate some decision in principle about this whole problem, which we have never faced squarely.

25X1A6a

4. General Carter buzzed to get my ideas about inviting Sam Papich and Bill Sullivan of the FBI to hunt at 25X1A6a After checking with Matt Baird, who in turn checked with 25X1A9a I told General Carter that we would be happy to have Sullivan and Papich go down anytime between 30 November and 18 December, preferably during the week. I requested that not more than two escorts accompany them and that after 25X1A9a has invited them he get in touch with Matt Baird and work out the details.

25X1A9a

[REDACTED]. Actually, I think that this was Bronson's preference but he was looking for some explanation to give [REDACTED] as to why he did not get the job. I asked Bronson to tell Austin that I had made this decision primarily because I did not wish to transfer him from the EE Division at this time and that, if he wants to talk about it further, he can come to see me.

25X1A9a

6. Mr. Kirkpatrick buzzed to say that the Director had asked him to investigate the charge that the Agency may be responsible for [REDACTED] draining 41 key people [REDACTED] I suggested to Kirk that he also talk with General Carter and Jack Earman. In addition, I said that I had asked the Office of Logistics for a status report on our business with [REDACTED] and that I would forward it to him as soon as I receive it.
